

THE WMUR GRANITE STATE POLL

THE UNIVERSITY OF NEW HAMPSHIRE SURVEY CENTER

July 30, 2013

NH SOURS ON OBAMA'S FOREIGN AFFAIRS, THINK COUNTRY IS ON WRONG TRACK

By: Andrew E. Smith, Ph.D.
Zachary S. Azem, M.A.
UNH Survey Center
603/862-2226
www.unh.edu/survey-center

DURHAM, NH – President Obama's overall job approval rating is unchanged, but approval of his handling of the economy and foreign affairs continue to decline in New Hampshire. Granite Staters are pessimistic about the country's outlook as a growing majority think the U.S. is on the wrong track.

These findings are based on the latest **WMUR Granite State Poll**,* conducted by the University of New Hampshire Survey Center. Five hundred and sixteen (516) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between July 18 and July 29, 2013. The margin of sampling error for the survey is +/- 4.3 percent.

Presidential Approval

President Obama's approval ratings remain unchanged since the Spring 2013 granite State Poll. Currently, 49% of New Hampshire adults say they approve of the job Obama is doing as president, 45% disapprove, and 6% are neutral.

Barack Obama Approval, All NH Adults

* We ask that this copyrighted information be referred to as *the Granite State Poll*, sponsored by WMUR-TV, and conducted by the University of New Hampshire Survey Center.

Obama has maintained very high approval ratings among Democrats (91%) but his approval has dropped among Independents (37%) for the second straight poll and he continues to garner very little approval from Republicans (12%).

Obama's favorability rating has declined since last fall. Obama is currently viewed favorably by 48% of New Hampshire adults, 45% have an unfavorable opinion of him, and 7% are neutral or don't know enough about him to say. Obama's net favorability rating, the percentage having a favorable opinion minus the percentage having an unfavorable opinion, is +3% which is down from +9% in April. New Hampshire Democrats continue to like Obama (net favorability rating of +81%), but he is unpopular among political independents (-15% net) and very unpopular among Republicans (-71% net).

Economic Approval Rating

As the economy in New Hampshire and the country struggles to recover, President Obama's economic approval ratings remain low. Currently, only 45% of New Hampshire adults approve of how Obama is handling the economy, 50% disapprove, and 5% are neutral. As with other approval measures, there is a considerable partisan gap -- most Democrats (88%) approve of Obama's handling of the economy, but only 29% of independents and 9% of Republicans approve.

Health Care Reform

Support for the Affordable Care Act has stayed relatively steady since April. In the most recent Granite State Poll, only 35% of New Hampshire adults favor the legislation, 44% oppose it, and 21% are neutral or don't know enough about it to say.

The Affordable Care Act remains popular among Democrats (74% favor), but remains very unpopular among Independents (15%) and Republicans (5%).

Foreign Affairs

Perception of how the Obama Administration has handled foreign affairs has dropped significantly since April. In the most recent Granite State Poll, 43% of New Hampshire adults say they approve of how President Obama is handling foreign affairs, 49% disapprove, and 8% are neutral. The same partisan divisions that characterize other ratings of the administration exist in evaluations of the administration's handling of foreign affairs -- 79% of Democrats, 26% of Independents and only 14% of Republicans approve of Obama's handling of foreign affairs.

Right Direction – Wrong Track

New Hampshire residents are becoming more pessimistic about the direction the country is headed. Currently, only 39% of New Hampshire adults think things in this country are generally going in the right direction, 56% think things are seriously off on the wrong track, and 5% are unsure. This represents the most pessimistic residents have been about the country's direction since July 2012.

Optimism has declined across partisan groups but Democrats remain the most optimistic about the country with 68% saying the U.S. is headed in the right direction. Only 15% of Republicans and 27% of Independents share this view.

Granite State Poll Methodology

These findings are based on the latest WMUR Granite State Poll, conducted by the University of New Hampshire Survey Center. Five hundred and sixteen (516) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between July 18 and July 29, 2013. The margin of sampling error for the survey is +/- 4.3 percent.

The data have been weighted to adjust for numbers of adults and telephone lines within households, respondent sex, age, and region of the state. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response.
